One Year Already?!?!?!?

Anniversary Sale

It's hard to believe it's been a whole year and we'd like to thank our awesome friends & customers! The very first order we placed for our store one year ago was for Sherrill Mudtools. And to celebrate our first year we're putting all Sherrill Mudtools on sale.... **25% OFF!!!** They're everyone's favorite tools - whether you're a red rib loyal, a blue rib diehard or stainless steel-er, Mudtools has something for every-

one! So come in and find your fave new wire cutter, wiggle or straight. Or maybe you've been wanting a carving bow for a long time. Need to replace an old shredder? Did you know we just brought back a brand new rib shape from NCECA? Perfect for making bowls! Don't forget about the amazingly practical mudsharks - get one in every color!

Slip-ping

After last month's Raku workshop, we got lots of questions about correct kiln atmospheres and getting your glazes to temperature. It's important to get the right mix of oxygen & fuel. Not enough oxygen means the kiln is reducing causing bubbly glazes & stalling. Try backing off your fuel, opening all spy holes or moving the burner back from the kiln a little.

Got ??? Just ask! info@atlantaclay.com

New and Hot Products

Texture Queen!
One of our favorite NCECA finds - hot new texture mats unlike anything else! With over three dozen different designs we're in love with the Pottery Texture Queen's texture mats! They're on their way!

The Coup
The wait is over! The cone 6 version of PorcelainforthePeople is in. We've got the Stuck Up Slip & the Casting Slip too. This porcelain acts like a stoneware but with all the beauty of a true porcelain!

Ash Glazes
New from Spectrum - brand new ash glazes for cone 6. No more traditional tobacco spit colors - these glazes are fresh and new. With names like Cactus, Blueberry & Kiwi you'll fall in love.
